Altrusans from District Fourteen hand out Luci lights

About 8,000 residents of Puerto Rico are displaced since earthquakes on December 28, 2019

The Luci light is portable, lightweight, solar-powered, and holds a charge for 24 hours.

The Luci light serves countless needs - from students studying at night to healthcare volunteers working in remote villages without power.

Thanks to YOU the Disaster Relief Fund gave...

2018-2019

- \$10,000 to the Red Cross after flooding in District Seven
- \$4,000 to Chipola Habitat for Humanity after Hurricane Michael in District Three
- \$4,000 to Golden Valley Community Foundation after Camp Fire in District Eleven

This year, in 2019-2020

- \$8,778 for (300) Luci lights to Altrusa International of District Fourteen; (300) Luci lights to Medicine for Mali; (150) Luci lights to the Ghana Health & Education Initiative
- \$1,000 to Douglas County Community Foundation after tornadoes in District Eight
- \$1,000 to Network of Community Ministries after tornadoes in District Nine
- \$2,160 for (160) Luci lights with USB ports to District Fourteen after earthquakes hit

Thank you for your continued support.

“The Luci lights are a resource to families in great need, living in shelters, because of the earthquakes. They are very thankful to receive them.”

Ileana Pacheco Morales
Governor of District Fourteen

300,000 residents are left without water and two-thirds of the island without power
